**Job Description**

#### **Rivian & Volkswagen Group Technologies Description**

Rivian and Volkswagen Group Technologies is a joint venture between two industry leaders with a clear vision for automotive's next chapter. From operating systems to zonal controllers to cloud and connectivity solutions, we're addressing the challenges of electric vehicles through technology that will set the standards for software-defined vehicles around the world.

The road to the future is uncharted. By combining our expertise across connectivity, AI, security and more, we'll map a new way forward. Working together, we'll create a future that's more connected, more intelligent, more sustainable for everyone.

#### **RESPONSIBILITIES**

- Design and develop Rivian mobile applications and its associated SDK for mobile devices on Android OS and iOS
- Develop sample and demo applications making use of our technology
- Collaborating with the and product and the design team to define app features.
- Ensuring quality and performance of application to specifications.
- Identifying potential problems and resolving application bottlenecks.
- Fixing application bugs before final release.
- Maintaining the code and atomization of the application.
- Designing and implementing application updates.
- Upgrading to Android/iOS Developer Requirements
- Grow your skills with continual learning, workshops, conferences and talks
