Job Description

Job Title: QA Automation Developer-Co-Op (8 months, Starting May 2025)

Job ID: R026721 / R026720

Ciena is committed to our people-first philosophy. Our teams enjoy a culture focused on prioritizing a personalized and flexible work environment that empowers an individual's passions, growth, wellbeing and belonging. We're a technology company that leads with our humanity-driving our business priorities alongside meaningful social, community, and societal impact.

Why Ciena?

- We're a company rooted in people-seeking to create a vibrant and inclusive environment, where everyone feels they can belong.
- Accelerate your career path by gaining hands-on experience and exposure to the latest technology. Our interns and graduates work on real projects in real time in world-class labs. Be a part of tomorrow's future - today.
- Mentoring. Networking. Leadership Opportunities. We recognize that learning doesn't stop when you leave school - we champion a team environment for development and provide the tools to achieve success.
- We are big proponents of life-work integration. Our people make a big difference at Ciena, but we want to shine a light on their differences outside of working hours too. Ciena Cares supports non-profit causes important to employees by matching employee financial contributions and dedicating time to volunteering.

The Opportunity:

8-month work term: May 2025 - December 2025

How You Will Contribute:

Ciena's Navigator Intelligent Applications is a next-generation Network Management solution for IP, Packet, and Optical networks. Based on microservices architecture, Navigator Intelligent Applications helps Network operators plan, provision, and troubleshoot multi-layer networks quickly using a highly intuitive user interface in addition to available open REST APIs. As a QA Automation developer, you will:

- Create REST API automation using Postman/JavaScript.
- Create and maintain automation builds on the CI/CD platform (TeamCity).

- Work closely with our team of developers and QA Engineers to design, develop, execute, and maintain automated test scripts.
- Automate UI test cases using Playwright/TypeScript.

Compensation and Benefits (Students)

The pay range for this position is \$24.50-\$33.00/hour

Pay ranges at Ciena are designed to accommodate variations in knowledge, skills, experience, market conditions, and locations, reflecting our diverse products, industries, and lines of business. Please note that the pay range information provided in this posting pertains specifically to the primary location, which is the top location listed in case multiple locations are available.

In addition to competitive compensation, Ciena offers students access to the Employee Assistance Program (EAP), company-paid holidays, paid sick leave, and vacation pay as required by applicable laws.

Job Requirements

What Does Ciena Expect of You?

- A sense of urgency - what's important to the customer is equally important to you. You make getting things done a priority.
- Integrity - you hold yourself to the highest level of personal and professional standards of conduct.
- A commitment to innovation - you continually seek to learn, understand new technologies and ever-changing market conditions, and endeavour to apply that knowledge to Ciena's advantage.
- You embrace change - thriving in a diverse environment of ever-changing priorities and sometimes stressful situations.
- The flexibility to work independently with minimal supervision as well as part of a broader team.

The Must Haves:

- Software programming experience in JavaScript
- Experience with Postman
- Understanding of REST APIs, JSON, and XML
- Understanding of Windows, UNIX Operating systems
- Knowledge of basic Linux and GIT commands
- Enthusiasm for Automation development and willingness to learn.
- Ability to estimate, prioritize, plan, and coordinate testing activities within the Development Team

Assets:

- Familiarity with Agile Scrum, Agile JIRA, Bitbucket and TeamCity
- Experience with web services and API testing; experience testing microservices is a plus.

Citizenship Requirement N/A
