**Job Description**

**Job Title: Software & Database Development Intern - Summer 2025**

**Job ID:** JR0124547

McKesson is an impact-driven, Fortune 10 company that touches virtually every aspect of healthcare. We are known for delivering insights, products, and services that make quality care more accessible and affordable. Here, we focus on the health, happiness, and well-being of you and those we serve - we care.

What you do at McKesson matters. We foster a culture where you can grow, make an impact, and are empowered to bring new ideas. Together, we thrive as we shape the future of health for patients, our communities, and our people. If you want to be part of tomorrow's health today, we want to hear from you.

#### **Program Overview**

McKesson's Intern program is 12 weeks long, and is designed to provide:

- A real-life working environment
- A solid foundation of experience and hopeful offer of full-time employment
- A cohort experience with other interns
- Consistent senior leadership exposure and learning experiences.

We are looking for candidates who have:

- Willingness to learn, develop, and contribute to a fun, demanding, fast-paced environment.
- Self-starter that brings both interpersonal skills abilities to identify a problem then solve it.
- Passion and enthusiasm for healthcare and our customers' success

**Work Term:** Summer 2025; starting May 2025

**Duration:** 4 months

**Location:** Mississauga, ON, CAN - 2300 Meadowvale Blvd (Hybrid)

**Job Summary:**

This student will be assigned a project-focused opportunity in a specific business unit and works directly with an Intern Coordinator and Sponsor. This is a hands-on opportunity to gain practical experience in a dynamic and growing industry. The internship program also provides networking, access to executives, structured performance & coaching and fun, local activities.

**Responsibilities:**

- Work with a cross-functional team (support analysts, developers, and operations)
- Manage database application for capacity, availability, performance, and data integrity.
- Install, configure, and clone environments for development, testing and production.
- Organize work and prioritize effectively with outstanding attention to detail.
- Design solutions to meet user requirements with focus on delivery within project timelines.
- Strive for delivery of technical work to very high standards.
- Evaluate products/tools and recommend technical direction.

We are proud to offer a competitive compensation package at McKesson as part of our Total Rewards. This is determined by several factors, including performance, experience and skills, equity, regular job market evaluations, and geographical markets. The pay range shown below is aligned with McKesson's pay philosophy, and pay will always be compliant with any applicable regulations. In addition to base pay, other compensation, such as an annual bonus or long-term incentive opportunities may be offered. For more information regarding benefits at McKesson, please click [here](#).

**Our Base Pay Range for this position**

\$17.69 - \$27.74

**McKesson is an Equal Opportunity Employer**

McKesson provides equal employment opportunities to applicants and employees and is committed to a diverse and inclusive environment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, protected veteran status, disability, age or genetic information. For additional information on McKesson's full Equal Employment Opportunity policies, visit our Equal Employment Opportunity page.
