Job Description

We're accepting applications now through end of day on **Monday, January 27, 2025**. All submissions will be reviewed during this time, as well as after the posting closes.

About Kinaxis

In 1984, we started out as a team of three engineers. Today, we have grown to become a global organization with over 2000 employees around the world, with a brand-new HQ based in Kanata North in Ottawa. As one of Canada's Top Employers for Young People (2024), we want to help you take the first step in crafting your career journey.

At Kinaxis, we power the world's supply chains to help preserve the planet's resources and enrich the human experience. As a global leader in end-to-end supply chain management, we enable supply chain excellence for all industries, with more than 40,000 users in over 100 countries. We are expanding our team as we continue to innovate and revolutionize how we support our customers.

Location

This is a hybrid position. You must be in the Ottawa, Canada office, at least three days a week.

About the team

Kinaxis is looking for a talented candidate to work within the Analytics Development team. The team is responsible for developing various algorithms to solve supply chain management problems. The uniqueness of the team is that it performs at the intersection of technology and real business problems. You will contribute to the product that delights customers world-wide! If you are someone that has a passion for technology and are looking for an opportunity to learn and grow-this challenge is for you.

This is a full-time, 4 or 8-month position, starting May 2025.

To be eligible for a Co-op or Intern position at Kinaxis, you must either be currently enrolled in full-time education or, if you are a recent/upcoming graduate, your graduation date must be within 12 months of the placement end date.

What you will do

- Work together with senior developers on feature development and bug fixes
- Maintain and develop tools for testing and debugging
- Collaborate and work closely with your team members
- May perform additional projects upon request

Job Requirements

What we are looking for

- Completion of 1st year of studies in a Computer Science (or equivalent) program
- C++ programming experience
- Desire to enhance your skills in Object-Oriented Design
- Very strong technical aptitude, with a preference for algorithms, data structures
- Insatiable drive for improving performance - you want to do it fast and right!
- Good collaborative skills and positive attitude
- Strong initiative and drive to get things done

Citizenship Requirement N/A
