Do you want to join us in helping to fight the world's most threatening diseases and enabling access to care for more people around the world? At Siemens Healthineers, we pioneer breakthroughs in healthcare. For everyone. Everywhere. Sustainably. At Siemens Healthineers, we offer you a flexible and dynamic environment with opportunities to go beyond your comfort zone in order to grow personally and professionally.

Our Global Team:

We are a team of more than 72,000 highly dedicated employees across more than 70 countries passionately pushing the boundaries of what's possible in healthcare to help improve people's lives around the world. As a leader in the industry, we aspire to create better outcomes and experiences for patients no matter where they live or what health issues they are facing. Our portfolio, spanning from in-vitro and in-vivo diagnostics to image-guided therapy and innovative cancer care, is crucial for clinical decision-making and treatment pathways.

Our Culture:

We are part of an incredible community of scientists, clinicians, developers, researchers, professionals, and skilled specialists pushing the boundaries of what's possible, to improve people's lives around the world. We embrace a culture of inclusivity in which the power and potential of every individual can be unleashed. We spark ideas that lead to positive impact and continued success. Acquires and learns practical knowledge and working experience in different technical fields of expertise, in the course of an academic education.

Do you want to join us in helping to fight the world's most threatening diseases and enabling access to care for more people around the world? At Siemens Healthineers, we pioneer breakthroughs in healthcare. For everyone. Everywhere.

At Siemens Healthineers, we offer you a flexible and dynamic environment with opportunities to go beyond your comfort zone in order to grow personally and professionally. Sound interesting? Then come and join our global team as a Software Developer [Co-op] to build a world class Oncology specific EMR and Treatment Management System that will be used to treat patients here in Canada as well as every other part of the world.

Our global team: We are a team of more than 68,000 highly dedicated employees across more than 70 countries passionately pushing the boundaries of what's possible in healthcare to help improve people's lives around the world. As a leader in the industry, we aspire to create better outcomes and experiences for patients no matter where they live or what health issues they are facing. This is a role well suited for a highly motivated student looking to build their skill set and gain hands-on experience. As a Software Developer [Co-op], you will be responsible for:

- You will play a key role in analyzing, designing, developing, and documenting software enhancements for Oncology focused products using modern development technologies such as .NET Core, C#, Java, Typescript, Angular, HTML, CSS, RESTful web services, SQL Server, etc.
- You will be involved in conducting and participating in design and code reviews, unit, feature, and regression testing, and will collaborate with software development teams and other departments worldwide on developing application solutions.
- You will use your analytical and proactive mind set and feel comfortable working on complex problems. You will work with talented people in a multicultural working environment and will bring the best in quality and value every.
- You'll join a cross functional team in building a world class Oncology specific EMR and Treatment Management System that will be used to treat patients here in Canada as well as every other part of the world. Siemens Healthineers contributes to the fight against cancer in over 100 countries across the globe.

Job Requirements

This position may suit you best if you are familiar with the areas and concepts below, and would like to develop your skills within Healthineers:

- Developing software systems.
- Software testing procedures.
- Performing meaningful peer code reviews.
- Required skills and education to have for the success of this role:
- Experience using at least one of the following technologies .NET Core, Java, JavaScript, Typescript, Angular (or similar JavaScript frameworks).
- Ability to be analytical, communicative and focused. In addition, can express and sell ideas.
- Aptitude to work independently and openly discuss ideas and solutions with colleagues.
- Currently enrolled in a bachelor's degree program, majoring in computer science.
- Minimum 3.0 GPA (preferred)

At Siemens Healthineers, we value those who dedicate their energy and passion to a greater cause. Our people make us unique as an employer in the med-tech industry. What unites and motivates our global team is the inspiration of our common purpose: To innovate for healthcare, building on our remarkable legacy of pioneering ideas that translate into even better healthcare products and services. We recognize that taking ownership of our work allows both us and the company to grow. We offer you a flexible and dynamic environment and the space to move beyond your comfort zone to grow both personally and professionally.

Citizenship Requirement N/A
