## Frontend development intern

### Who we are

Recognized as one of Canada's fastest-growing companies, Lumen5 is an online video creation platform powered by machine learning and designed for businesses, brands, and creatives.

Launched in 2017, our mission is to make video marketing accessible to everyone. We believe that video is the most powerful tool for storytelling, but not everyone has the skills or resources required to produce thumb-stopping videos. We created Lumen5 to solve this problem.

We currently have over 3.5 million users and work with notable brands, including Emerson, Best Western, Siemens, and Mitsubishi. Our company has won growth awards from Canadian Business and the Globe and Mail, and has been twice recognized as a top 4 finalist for the BC Tech Associations Technology Impact Awards 'Tech Culture of the Year'.

We now have our sights set on revolutionizing how businesses create video, and we're looking for like-minded folks to join us in elevating Lumen5 to the next level.

### What you'll do

- Write, document, review and test code with the support of our senior experts
- Contribute to and collaborate on our React application by engaging with designers and product managers.
- Add new features and capabilities to our application
- Identify and fix bugs
- Engage in team discussions and help brainstorm solutions
- Give and receive feedback from your peers
- Accelerate your own growth and learning while also contributing towards the team's shared knowledge
- Foster positivity and collaboration

#### **Job Requirements**

## **What we're looking for**

We're looking for a sharp, aspiring developer to join our team as an intern and work on interesting technical challenges. Our team builds a cutting edge application that let's users create videos from ideas, blog posts and documents. We leverage Typescript, React and Django to quickly deliver features to our customers with a delightful user experience.

This individual should be eager to learn and have a strong desire to level up their technical skills as part of our fast-paced, high-growth startup environment. With the support of our team, you will be given opportunities to make meaningful contributions, which deliver value to our users and having a direct impact on the growth of our business.

## **Requirements**

- Effective communicator
- Strong computer science fundamentals
- Proficient in Javascript/Typescript and React
- Understanding of python
- Understanding of Django or similar backend frameworks
- Understanding of agile software development
- Eager to learn new skills and take on technical challenges
- Bonus: experience with UI/UX design, artificial intelligence or computer graphics
- Bonus: experience in digital content creation, video editing or similar

**Citizenship Requirement**                      N/A
