Job Description

Job Title: Student, QA Testing Automation

Job ID: 10563

Application Deadline: January 26, 2025 23:59 EST

Take a central role

The Bank of Canada has a vision to be a leading central bank-dynamic, engaged and trusted-committed to a better Canada. No other employer in the country offers you the unique opportunity to work at the very center of Canada's economy, in an organization with significant impact on the economic and financial well-being of all Canadians. You will be challenged, energized and motivated to excel in our environment.

Building on the principles that have always guided us - excellence, integrity and respect - we strive to be forward-looking and innovative, to welcome people with diverse perspectives and talents, and to earn trust by living up to our commitments and by clearly explaining the intent of our policies and actions.

With our defined-benefit pension plan, benefits, and high flexibility for work life balance - find out more about why we are annually ranked as one of Canada's top employers: Working Here - Bank of Canada

Find out more about the next steps in our Recruitment process.

About the position

You will be part of a dynamic team working to respond to evolving business needs at the centre of Canada's economy. You will join a team of technology professionals that are creating the platforms, applications, and ideas to shape the future and provide the foundation for our entire business. As a student you will support the work of operational teams as they maintain resilient operations

and position the Bank's technology architecture to meet broad and evolving needs. There is no better place to enhance the knowledge you are gaining through your studies.

What you need to know

- Priority will be given to Canadian citizens and permanent residents
- Security level required: Be eligible to obtain Reliability
- There will be no relocation assistance provided
- Please save a copy of the job poster. Once the closing date has passed, it will no longer be available.

Remote work / Hybrid Work Model

The Bank offers work arrangements that provide employees with flexibility, enable high-performing teams, and support an excellent workplace culture. Most employees can telework from home for a substantial part of each month as part of the Bank's hybrid work model, and they are expected on site at the Bank location a minimum of eight days per month to help build connections between colleagues. You must live in Canada, and within reasonable commuting distance of the office. For this position, should you not live within reasonable commuting distance of the office, you will be able to work 100% remote (within Canada) for the duration of this term.

What you can expect from us

This is a great opportunity to join a leading organization and be part of a high-performing team.

- Salary \$28.17 hourly (job grade Student C)

We wish to thank all applicants for their interest and effort in applying for this position. Only candidates selected for interviews will be contacted.

Job Requirements

Your education and experience

To qualify for these opportunities, you need to be currently enrolled as a student in a related field at a college or university (undergraduate level). Additionally, you must be returning to school in the next academic term.

Knowledge and Skills

- proficient in analyzing applications to identify failure points and devise effective solutions for resolution
- familiar with the concepts of object-oriented programming, Java
- capable of developing and executing automated test cases and scenarios according to project specifications
- as a team member in a scrum team, actively participates in test planning strategy and review meetings
- ability to systematically analyze information, define problem and draw logical conclusions
- strong communication, interpersonal and organizational skills
- ability to work independently or as part of a team
- self-starter and innovative problem solver who enjoys working in a dynamic work environment
- experience or understanding of Agile and DevOps delivery approach
- experience with automated testing tools, for example Selenium, would be useful

Language requirement

The Bank's work environment is conducive to the use of both of Canada's official languages - English and French. Although the position language requirement is English or French essential, we do encourage everyone to improve second their language proficiency for future career growth and to contribute towards fostering a bilingual environment.

Citizenship Requirement N/A
