Job Description

Geotab is a leading provider of IoT data and analytics for the transportation and logistics industry. We are seeking a motivated and detail-oriented Software Developer Intern to join our team. This is a full-time, paid position with a duration of 8-16 months, starting in May 2025. The intern will be responsible for assisting in the development and testing of software applications used in our fleet management solutions. This is an excellent opportunity for a student to gain hands-on experience in a professional development environment.

- 8-16 month work-term beginning May 2025.
- Full-time, paid internship: Monday - Friday, 37.5hrs/week.
- Your first week at Geotab begins with 'GEO Launch' - a one-week Employee Orientation. Click here to learn more!

How you'll make an impact

- Learn C# and software design patterns.
- Learn how our system is deployed in the cloud.
- Assist and participate in code reviews.
- Improve skills and knowledge of source control with Git.

Geotab is an equal opportunity employer. We are not responsible for any fees related to unsolicited resumes or applications. We are an equal opportunity employer and do not discriminate on the basis of race, gender, age, religion, or ethnicity.

Job Requirements

What you'll bring to the role

- Completing your degree in Computer Science, Electrical or Software Engineering, or other related degrees.

- Use GIT for source control.
- Develop UI components using TypeScript, JavaScript, HTML, and CSS.
- Develop automated unit tests using XUnit in C#.
- Develop software using C# on .Net Core.
- Create database access code using SQL queries and Postgres database.
- Participate in peer reviews.
- Debugging and testing software.

Write technical documentation, if you are excited about this role! Even if you don't feel you meet every single requirement, we encourage you to apply.

Citizenship Requirement N/A
