Job Description

Key job responsibilities

As a UX Design intern you will/may:

- Design thoughtful, beautiful, and useful software user interfaces and experiences in a team environment.
- Create user-centered designs by considering market analysis, customer feedback, site metrics, and usability findings.
- Use business requirements, user and market research to assist in developing scenarios, use cases, and high-level requirements.
- Design the UI architecture, interface, and interaction flow of applications and experiences.
- Develop conceptual diagrams, wireframes, visual mockups, click-throughs, and prototypes.
- Develop and maintain detailed user-interface specifications and design patterns.
- Work with program managers to plan projects for effective delivery while maintaining high standards for design.
- Be a passionate and effective advocate for design with non-design audiences.
- Write effectively to communicate design rationales and benefits to Amazon customers.

Job Requirements

BASIC QUALIFICATIONS

- Are enrolled in a academic program that is physically located in the United States
- Are 18 years of age or older
- Have at least two creative materials for Amazon to review (they can be in any format, i.e. website, PDF, slide deck)
- Work 40 hours/week minimum and commit to 12 week internship maximum
- Experience in a variety of design, wire-framing, and prototyping tools
- Currently working towards a Bachelor's or Master's Degree in Design, Human-Centered Interaction, Statistics, Psychology,

Computer Science, or other equivalent discipline, with an expected conferral date between October 2025 - December 2028.

PREFERRED QUALIFICATIONS

- Experience with visual design demonstrated through mockups and style guides
- Experience working in a collaborative team environment to deliver high-quality design solutions
- Knowledge of mobile and web design patterns and accessibility standards

Citizenship Requirement N/A
