Job Description

About Vizzion:

Vizzion aggregates live road imagery and provides data and services to major brands in the mapping, media, safety & security, ITS (Intelligent Transportation Systems), and traffic & weather industries. Our imagery is used by millions of users every week, saving drivers time, money, and frustration, while also helping the environment by reducing vehicle emissions.

Our dynamic team enjoys flexible hours, rapid professional development, and results-based rewards. We are located in North Vancouver, close to Phibbs Exchange and many amenities.

Job Description:

We are seeking a student developer to assist with a software project focused on iOS and Android development, with an emphasis on maps, geography, and image-related features. The ideal candidate has experience building mobile applications, working with mapping APIs, and handling geographic or image data. This is a paid, temporary position offering hands-on experience in a collaborative environment

Core Values

- Detail oriented with a relentless drive for quality and accuracy
- Be a person who brings energy and solutions, not a person who causes entropy and exacerbates problems

Mindset and Approach

- Brings data driven, evidence-based decision-making and recommendations
- Able to channel different points of view; establish and maintain excellent relationships and credibility quickly; create team atmosphere with internal staff while achieving key objectives

Key Accountabilities

- Project planning and estimation
- Design, code, test, release
- Weekly written and verbal progress reports

What We Offer:

- Gain hands-on experience by working on a real product we plan to launch publicly, solving real challenges, and contributing to a real software company with major brand clients. You'll have the opportunity to apply your technical skills in a meaningful way while acquiring practical experience to enhance your resume.
- Work on an impactful project in a supportive team environment - Your contributions will directly influence the development of a functional application with real-world applications. You'll collaborate with experienced professionals who are eager to mentor and support your learning journey.
- Flexible hours - This role offers flexibility in work hours, allowing you to balance coursework and exams while gaining valuable work experience.
- Salary Rate: \$25 per hour
- A workplace that prioritizes employee health, safety, and well-being, including numerous learning and growth opportunities, coaching from senior team members, and rapid growth opportunities only possible within small but effective teams.

Please note: This position is a full-time, on-site role based in North Vancouver, requiring in-person attendance five days a week. This means the successful candidate will be expected to work from our North Vancouver office for the entirety of their work schedule.

Job Requirements

Required Education, Skills and Experience

- Experience with iOS and Android development
- Experience with APIs
- Excellent communicator fluent in spoken and written English

Experience with the following is considered an asset:

- Mapping APIs
- Geographic data
- Imaging data
