Work Term 5: \$30.00/hr

Work Term 6: \$31.00/hr

- Please note that employment may be contingent upon the successful completion of a Canadian criminal record check.

Software Developer Intern

Safe Software is looking for a Software Developer Intern to join our Vector Geometry team. This is a four-month, full-time placement (with the possibility of an 8-month extension).

Our co-op placements provide opportunities for hybrid/on-premise work at our office in Surrey, BC, Canada. To ensure the best onboarding and mentorship experience, interns are required to work on-premise at least 2 days per week, with the flexibility to work remotely for the remaining 3 days.

About The Team

The Vector Geometry team is responsible for developing and maintaining the core geometry model and implementing 2D and 3D spatial transformations. These components are integral to FME, powering complex workflows and supporting the analysis and

transformation of spatial data. You'll work alongside software developers, QA analysts, and co-op interns in a collaborative environment focused on innovation and quality.

What You'll Be Doing

As a Software Developer Intern, you'll have the opportunity to:

- Collaborate within a team of developers and QA members to deliver high-quality solutions.
- Participate in daily stand-ups, design discussions, and technical meetings.
- Write, debug, and maintain efficient C++ code.
- Analyze issues and provide feasible resolutions.
- Develop technical documentation for code implementation.
- Test your code and create automated test cases.
- Explore and apply new technologies relevant to planned features.
- Learn and refine best practices for software development and algorithm design.

What You Can Expect

When you choose an internship with Safe Software, you're also choosing...

- **Meaningful Work:** Be a part of the solution. Get involved in hands-on projects that matter to you (and us) that challenge your critical thinking and help take your skills to the next level.
- **A Supportive Environment:** Feel empowered to share your ideas and implement them with high autonomy and support.
- **Mentorship:** Learn from a team of experienced mentors and technical leaders who will support your development. 1 in 4 of our current staff started as student interns!
- **Social Responsibility:** Become a part of an organization that finds meaningful ways to give back.
- **Work-Life Balance:** There's no place for burnout at Safe. Maintain a healthy balance of your personal and work life without splitting yourself in two. Student interns enjoy 4% vacation pay to allow for flexibility for time off during your term.
- **Fun:** Participate in team building activities to let loose and have fun! Check out our Takeover Tuesday and #LifeAtSafe Instagram highlight reels to see what a work term at Safe is like.
- **Shared Success:** Share in Safe's success with our bi-annual profit sharing.
- **An Accessible Commute:** Regardless of your commute method, we're located close to public transit, and provide complimentary parking and bike storage for our team!

About Safe Software

Safe Software is the creator and developer of FME - the data integration platform with the best support for spatial data worldwide. Over 10,000 organizations around the world use FME in industries like AEC, government, utilities, and transportation to maximize the value of their data.

Founded in 1993, Safe is headquartered in Surrey, BC with over 200 team members and counting. We're always looking for talented individuals with diverse backgrounds who are determined to learn and grow. Are you ready to join the team?

Our Commitment to Diversity and Inclusion

Safe Software is an equal opportunity employer and we truly believe that innovation and strength begin with diversity and inclusion. We welcome all candidates regardless of race, gender identity or expression, sexual orientation, age, ability, disability, national or ethnic origin, political belief, religion, or family status. Should you require accommodations during the recruitment process, please contact hr_dept@safe.com.

Job Requirements

Qualifications, Skills, and Competencies

Safe Software evaluates applicants based on their passion and skill with technology. That said, having experience with some of the following areas is an asset.

- Experience with C++ programming and object-oriented design.
- Understanding of algorithm design and debugging techniques.
- Enthusiasm for problem-solving and creating efficient solutions.
- Ability to communicate and collaborate effectively in a team environment.
- Strong organizational skills to prioritize tasks and manage projects.
- Motivation to learn new technologies and apply them effectively.

Desired Skills / Bonus Points

- Familiarity with tools like Git, Visual Studio, and Jira.
- Exposure to geometry processing or spatial data algorithms.
- Knowledge of debugging ill-conditioned problems.
- Understanding of software development methodologies like Kanban.

•Interest in mathematics or computational geometry.

Citizenship Requirement N/A
