#### Who we want

- Challengers. People who seek out the hard projects and work to find just the right solutions.
- Teammates. Partners who listen to ideas, share thoughts and work together to move the business forward.
- Charismatic networkers. Relationship-savvy people who intentionally make connections with both internal partners and external contacts.
- Strategic thinkers. Interns who propose innovative ideas and consistently exceed their performance objectives.
- Customer-oriented achievers. Individuals with an unparalleled work ethic and customer-focused attitude who bring value to their partnerships.
- Game changers. Persistent interns who will stop at nothing to live out Stryker's mission to make healthcare better.

#### What You Get Out of the Internship

Stryker, a global leader in medical technology takes great pride in their people, and that's why we're looking to expand our talent. As a result, we are looking for the best and brightest students to strengthen our team and drive our business going forward. As an IS intern at Stryker, you will:

- Apply classroom knowledge and gain experience in a fast-paced and growing industry setting
- Implement new ideas, be constantly challenged, and develop your skills

- Network with key/high-level stakeholders and leaders of the business
- Be a part of an innovative team and culture
- Experience documenting complex processes and presenting them in a clear format

#### **Opportunities Available**

IS interns will -

- Work at the direction of the IS Business partner to improve business processes with existing and/or new technology
  - Apply analytical abilities to enterprise systems and data to bring insight to business issues
  - Work cross-functionally within the business and Global IS to achieve the desired improvements
  - Prepare / create report templates for program team to use in future phases of the program where new metrics and/or processes were created and/or modified
  - Prepare and present an overview on new process and metrics identified and implemented
  - Project management including project status, establishing metrics developing processes
  - Define opportunities, priorities and recommendations to improve user experience (UX) around voice, cellular, wireless, conferencing, and related services
  - Update of team training documentation
- \$22 min hourly wage - \$32 max hourly wage and either paid corporate housing or a living stipend, dependent upon hiring location.

#### **Job Requirements**

**Majors Targeted:** Business, Statistics, Information Technology Management/Science, Business Analytics, Supply Chain Management

#### **What You Need**

- Currently working on completion of a Bachelor's or Master's degree in related field or equivalent; we will only consider students who plan to be enrolled in a degree-seeking program after the summer.
- Cumulative 3.0 GPA or above; must be the case at the date of hire and will be verified during background check in the spring
- Must be legally authorized to work in the U.S. and not require employment-based sponsorship now or in the future.
- Excellent written and verbal communication skills.
- Strong interpersonal skills.
- Ability to exercise independent judgment and proven leadership and business acumen skills.
- Proven ability to handle multiple projects and meet deadlines.
- Versatility, flexibility, and a willingness to work within constantly changing priorities with enthusiasm.
- Strong organizational, problem-solving, and analytical skills; able to manage priorities and workflow.
- Proficient on basic computer programs: Microsoft Excel, Word, PowerPoint.
- Basic understanding of computer networking technology
- Experience with process mapping

**Citizenship Requirement** N/A
