The team you'll be part of

Network Infrastructure business group aims to accelerate digitalization and create reliable high-speed connections to homes and workplaces. NI continues to expand its footprint in the data center space and leverage its technology leadership in IP routing; there is a continued demand for network automation and orchestration.

#### HOW YOU WILL CONTRIBUTE AND WHAT YOU WILL LEARN

We are seeking students to join our team of network automation and orchestration experts. We work closely with customers as professional services consultants to create and deliver automation solutions for our IP customers. Our deployments are primarily related to the IP Networking in Nokia's DataCenter solution.

Our team provides tools & custom scripting work in ansible, python, and other scripting languages to enable the fulfillment of these workflows. As a student, you will be working closely with a senior member of our team on tools & scripting-related tasks.

#### As part of our team, you will:

- · Learn about Nokia's Data Center Solution
- •Gain hands-on experience with OpenStack and Kubernetes
- •Develop scripts to aid our team in the delivery of custom automation projects

#### **About Us**

#### Come create the technology that helps the world act together

Nokia is committed to innovation and technology leadership across mobile, fixed and cloud networks. Your career here will have a positive impact on people's lives and will help us build the capabilities needed for a more productive, sustainable, and inclusive world.

We challenge ourselves to create an inclusive way of working where we are open to new ideas, empowered to take risks and fearless to bring our authentic selves to work

#### What we offer

Nokia offers continuous learning opportunities, well-being programs to support you mentally and physically, opportunities to join and get supported by employee resource groups, mentoring programs and highly diverse teams with an inclusive culture where people thrive and are empowered.

#### Nokia is committed to inclusion and is an equal opportunity employer

Nokia has received the following recognitions for its commitment to inclusion & equality:

- One of the World's Most Ethical Companies by Ethisphere
- Gender-Equality Index by Bloomberg
- •Workplace Pride Global Benchmark

At Nokia, we act inclusively and respect the uniqueness of people. Nokia's employment decisions are made regardless of race, color, national or ethnic origin, religion, gender, sexual orientation, gender identity or expression, age, marital status, disability, protected veteran status or other characteristics protected by law. We are committed to a culture of inclusion built upon our core value of respect.

Join us and be part of a company where you will feel included and empowered to succeed.

#### **Additional Information**

US/Canada Nokia Offers a comprehensive benefits package that includes but is not limited to:

- · Corporate Retirement Savings Plan
- •Health and dental benefits
- ·Short-term disability, and long-term disability
- •Life insurance, and AD&D Company paid 2x base pay
- •Optional or Supplemental life and AD&D insurance (Employee/Spouse/Child)
- •Paid time off for holidays and Vacation
- •Employee Stock Purchase Plan
- •Tuition Assistance Plan
- Adoption assistance
- •Employee Assistance Program/Work Life Resource Program

The above benefits exclude students.

#### Disclaimer for US/Canada

Nokia Maintains broad annual base salary ranges for its roles in order to account for variations in knowledge, skills, experience and market conditions, and with consideration to internal peer equity. (Check the salary ranges in the job info section for this role)

# All North America job posts will post for a minimum of 7 calendar days and up to 180 days or until candidate/s identified. About the Team

As Nokia's growth engine, we create value for communication service providers and enterprise customers by leading the transition to cloud-native software and as-a-service delivery models. Our inclusive team of dreamers, doers and disruptors push the limits from impossible to possible.

#### **Job Requirements**

# **Education Recommendations**

Currently enrolled in the third or fourth year of a bachelor's degree or diploma in Computer/Software/Electrical Engineering, Information Technology, Computer Science, or a related field with an accredited school in Canada.

## **KEY SKILLS AND EXPERIENCE**

- · Comfortable working with Linux operating systems
- •Familiar with virtualization technologies would be an asset
- •Experience with Java and familiarity with programming concepts
- Scripting (bash, Perl, Python, etc.)

Citizenship Requirement N/A
