Job Description	

Job Title: Full Stack Developer CO-OP
Job ID: 759622
Application Deadline: February 28, 2025

At this time, Ericsson Canada Inc. does not provide immigration assistance/sponsorship now or in the future for this position.

As a Full Stack Developer CO-OP, you will be joining the team developing Ericsson's Product Lifecycle Management System for Software (PLMS). The PLMS program is rethinking and radically improving product data handling for hardware-independent, cloud-native microservice-based products! The goal is to cater for the best possible support for our software business, by ensuring the integrity and traceability of software product data and exposing this data for use across the company!

As a CO-OP you will also get the opportunity to learn a few of the technologies above in your day-to-day work environment.

What you will do:
• Develop and test high quality microservices following a Cloud-Native architecture.
• Participate in Continuous Integration of our products.
• Perform Trouble Shooting of problems assigned to your team.
• Be an active participant in all activities of an Agile team: daily scrum, sprint planning, demos, feature grooming and retrospectives.

Job Requirements

The skills you bring:
• Enrolled in a Canadian University - bachelor's or master's degree with at least 1 semester remaining after the CO-OP.
• Programming experience in Java, Angular, and Python.

•Knowledge of integration technologies: Docker, Kubernetes , REST, Helm, Jenkins, Spinnaker, JSON , GitLab.

•Knowledge of Git, Artifactory, Maven, Gradle, Databases (e.g. Neo4J graph database).

•Fluent written and verbal English skills.

Citizenship Requirement   N/A
