Job Description

Job Title: Co-op Student, Software Developer, 4 months
Job ID: 456872
Change the future with us.
We are passionate about innovations that mean real progress. We are excited about technologies that still need to be developed. What about you? Do you want to use your curiosity, passion, and creativity to make the lives of millions of people easier and better? Join us as a graduate -either by beginning your career with us or through a co-op placement. Whichever path you take, we're looking forward to seeing your perspective.
Why you'll love working for Siemens!
• Freedom and a healthy work- life balance- Embrace our flexible work environment with flex hours, telecommuting and digital workspaces.
•Solve the world's most significant problems - Be part of exciting and innovative projects.
•Engaging, challenging, and fast evolving, cutting edge technological environment.
•Opportunities to advance your career and mentorship programs on a local and global scale.
•Competitive total rewards package
•Contribute to our social responsibility initiatives focused on access to education, access to technology and sustaining communities and make a positive impact on the community.
•Participate in our celebrations, social events and offsite business events.
•Opportunities to contribute your innovative ideas and get paid for them!
•Employee perks and discounts.

•Diversity and inclusivity focused.

Siemens is proud to be an eight-time award winner of Canada's Top 100 Employers, Canada's Greenest Employers 2025 and Canada's Top Employers for Young People 2025.

What will you do?

• Assist in the development of test and automation solutions

•Support production and software validation

•Collaborate with an experienced engineering team to review and contribute to test/validation development designs

•Implement software and hardware solutions, including hardware procurement, integration, qualification, and installation support for electronics manufacturing testing

•Assist in developing and updating work instructions

•Exposure to engineering project development and support

•Contribute to process optimization and improving development efficiency

•Develop software in C# or ASP.NET

•Fix bugs in C# or ASP.NET

•Validate software functionality

About us.

We share our ideas and champion the people behind them.

Siemens Canada is a technology company focused on industry, infrastructure, transport, and healthcare. From more resource-efficient factories, resilient supply chains, and smarter buildings and grids, to cleaner and more comfortable transportation as well as advanced healthcare, the company creates technology with purpose, adding real value for customers since 1912. By combining the real and the digital worlds, Siemens empowers its customers to transform their industries and markets, to transform the everyday for billions of people. Siemens also owns a majority stake in the publicly listed company Siemens Healthineers, a globally leading medical technology provider shaping the future of healthcare. In addition, Siemens holds a minority stake in Siemens Energy, a global leader in the transmission and generation of electrical power. As of September 30, 2023, the company has approximately 4,200 employees from coast-to-coast and 33 office and production facilities across Canada. Siemens Canada has a revenue of ~ CAD $2Billion.
