Job Title: 2025 (4-Month) Intern (Canada) - Test Engineering
Job ID: 107699
Remote Work: Hybrid
Overview:
At Zebra, we are a community of innovators who come together to create new ways of working to make everyday life better. United by curiosity and care, we develop dynamic solutions that anticipate our customer's and partner's needs and solve their challenges. Being a part of Zebra Nation means being seen, heard, valued, and respected. Drawing from our diverse perspectives, we collaborate to deliver on our purpose. Here you are a part of a team pushing boundaries to redefine the work of tomorrow for organizations, their employees, and those they serve.
You have opportunities to learn and lead at a forward-thinking company, defining your path to a fulfilling career while channeling your skills toward causes that you care about - locally and globally. We've only begun reimaging the future - for our people, our customers, and the world.
Let's create tomorrow together
The purpose of this internship is to prepare college students for entry into the business world by providing a thorough understanding of the various functions of the Zebra Technologies organization. The program is designed to provide you with a full experience so that you can fully envision a career with Zebra. You will be positioned for success with training, exposure to all parts

of the business, social activities, a professional mentor relationship and development sessions to help you discover your own performance edge!

Responsibilities:

• After an initial on the job training shadowing senior members of the staff to learn the current state of the processes, the intern will be challenged to help develop API and Test tools for the both H/W and SW products developed by Zebra Technologies. This will include but not limited to:

•API Development

•Perfrom analysis using statistical means (mean, standard deviation, distributions)

•Able to use Data bases for analytics, reporting Experience with NoSQL (MongoDB)

•Be able to use some basic Linux Systems

•Programing using Object-Oriented Tools.

•Co develop fixtures, Automation and Machine Vision soutions to support Manufacturing

•Develop planning, organizational and leadership skills

•Increase technology knowledge and skills

•Develop team-based work proficiencies

•Develop interpersonal skills to connect with day-to-day business contacts through follow up activities

<mark>THIS IS A HYBRID INTERNSHIP. THIS INTERN MUST BE ABLE TO WORK ONSITE AT ZEBRA'S MISSISSAUGA, ONTARIO OFFICE AT LEAST 3 DAYS/WEEK.</mark>

<mark>TARGET START DATE - MAY/JUNE 2025</mark>

Job Requirements
