Job Description	

This is a full-time 8 position starting May 2025.

About Kinaxis

In 1984, we started out as a team of three engineers. Today, we have grown to become a global organization with over 2000 employees around the world, with a brand-new HQ based in Kanata North in Ottawa. As one of Canada's Top Employers for Young People (2024), we want to help you take the first step in crafting your career journey.

At Kinaxis, we power the world's supply chains to help preserve the planet's resources and enrich the human experience. As a global leader in end-to-end supply chain management, we enable supply chain excellence for all industries, with more than 40,000 users in over 100 countries. We are expanding our team as we continue to innovate and revolutionize how we support our customers.

Location

If in Ottawa, you must be in the office at least three days a week. If not in Ottawa, you can work remotely but you must be in the same time zone.

About the team

Our server is truly the foundation of our company. Its key strengths of speed and collaboration are the "Wow!" aspects of our product. As a member of our QA team, you will be one of the "behind-the-scenes wizards" who propel forward our core technology

- you will contribute by developing automated tests to ensure exceptional product quality that delights customers world-wide! Your passion for quality and affinity for detail will allow you to consistently deliver thorough results within a framework of tight deadlines and changing priorities.

What You Will Do

• Contribute to a variety of test activities throughout the feature development lifecycle

•Contribute to the implementation of automated test suites

•Write automated tests, primarily in Junit, TestCafe

•May perform additional projects as assigned

We're accepting applications now through end of day on Friday, January 24, 2025. All submissions will be reviewed during this time, as well as after the posting closes.

Job Requirements

What We Are Looking For

• Completion of the 2nd year of a Computer Sciences/Computer Engineering program

•Experience in programming techniques/languages (Python, TypeScript, Java, JavaScript, Powershell, JSON, Jenkins, Terraform)

Citizenship Requirement   N/A

APPLICATION INFORMATION

Application Procedure   Through Employer Website

Cover Letter Required?   Optional

Address Cover Letter to   Hiring Manager
