Job Description

Please apply to this job with your personal email address (not your University or Program account) to avoid important Twitch emails hitting your spam inbox.

About Us:
Launched in 2011, Twitch is a global community that comes together each day to create multiplayer entertainment: unique, live, unpredictable experiences created by the interactions of millions. We bring the joy of co-op to everything, from casual gaming to world-class esports to anime marathons, music, and art streams. Twitch also hosts TwitchCon, where we bring everyone together to celebrate, learn, and grow their personal interests and passions. We're always live at Twitch. Stay up to date on all things Twitch on Linkedin, X and on our Blog.

About the Role
At Twitch, we're always looking for high-potential talent. If you're a current student at a North American college or university interested in computer science, we'd love to see you apply. See below for just a few reasons why our cohort-based internship program is one-of-a kind.

Project-Based Learning at Scale: Twitch operates at a massive scale, requiring us to push the boundaries of technology and experiment with techniques used by only the largest websites. As an intern, you'll have the opportunity to work on some of the most challenging engineering problems in the industry, making every project a valuable learning experience.

Comprehensive Support Team: To ensure our interns thrive, we provide a dedicated support system, including a Manager, Mentor, and Early Careers Advisor. This team will work closely with you to guide your project from start to finish and ensure you have the resources needed to succeed.

Enriched Intern Community: In addition to hands-on engineering work, you will participate in leadership and interpersonal development curriculum, as well as gain valuable industry insights from Twitch leaders through fireside chats. To complement the technical aspects of the program, we offer a variety of enrichment activities, including cohort trips, weekly advisory sessions, and local community events. We also provide housing assistance to make your summer internship as rewarding and enjoyable as possible.

Want to learn more? Check out the Early Careers Page for internship and student-focused content.

You Will:
• Contribute to product design and implementation discussions
• Find and build unique solutions to implement projects from the idea phase to production
• Test and iterate code before and after production release
• Connect with intern peers, new teammates, and colleagues from across the business
You Have:
• Eagerness to investigate challenges and present reasonable solutions reliably and quickly
• Excitement to pick up a new language and be productive with it in a week
• Desire to work collaboratively in a team environment
• BA/BS Graduation Year: December 2025 or Spring 2026 (No Masters/PhD)
• Completed coursework in or have an understanding of Data Structures and Algorithms

Perks
• Housing stipend provided (for in person)

We are an equal opportunity employer and value diversity at Twitch. We do not discriminate on the basis of race, religion, color, national origin, gender, sexual orientation, age, marital status, veteran status, or disability status.

Pursuant to the San Francisco Fair Chance Ordinance, we will consider for employment qualified applicants with arrest and conviction records.

Our compensation reflects the cost of labor across several US geographic markets. The base pay for this position ranges from $42.5/hr in our lowest geographic market up to $88.94/hr in our highest geographic market. Pay is based on a number of factors including market location and may vary depending on job-related knowledge, skills, and experience. Amazon is a total compensation company. Dependent on the position offered, equity, sign-on payments, and other forms of compensation may be provided as part of a total compensation package, in addition to a full range of medical, financial, and/or other benefits. For more information, please visit https://www.aboutamazon.com/workplace/employee-benefits. Applicants should apply via our internal or external career site.

Citizenship Requirement   N/A
