Job Title: Internships Summer 2025, Software Engineering and Computer Engineering

THE EXPERIENCE OF A LIFETIME

BRP's internship program is truly one of a kind. We hire more than 350 interns a year from all backgrounds, skill levels and professions. And many of these internships lead to employment at BRP because we believe in investing in our talent to help them reach their full potential. At BRP, you'll work with an experienced professional team and have the opportunity to work on challenging projects with real impact. Will you be our next generation? Apply now!

Any benefits? There's no shortage of them for our interns!

• Competitive salary and a bonus for returning to the internship: we know how hard you work, so we offer you what you deserve.

•Flexible working hours: whether you're in the office or working from home, you'll always be supported by your team.

•The most stimulating work environment: progress doesn't come from standing still. You'll have the chance to learn and be challenged by tomorrow's top talent.

•Social activities: the cohort of 100 interns is never bored with a full calendar of activities organized by the social committee!

Overview of the recruitment process:

1. The internship team will analyze all applications received on the career site and on university platforms and will share those that are selected with the internship managers. Don't hesitate to add a project portfolio, your transcript, your academic involvement and anything else that sets you apart!

2. The manager of an internship that might be suitable for you will invite you to a one-on-one interview if your application has caught their attention. You may be contacted by several managers! Please note that you will only be contacted if you are

selected for an interview.
3. After the interview, if your application is successful, you may be offered an internship at BRP!

WELCOME TO BRP

As a world leader in recreational vehicles and boats, we create innovative ways to get around on snow, water, asphalt, land and... even in the air. Our corporate headquarters are in Valcourt, Quebec, but we offer internships in Sherbrooke and Montreal as well. We have manufacturing facilities around the world. We have more than 20,000 dynamic people, driven by the deep conviction that in work, as in life, it's not about the destination. It's the journey. It's your journey.

ACKNOWLEDGING THE POWER OF DIVERSITY

BRP is dedicated to nurturing a culture that invites, connects, and propels the ambitions of people of all backgrounds, profiles, beliefs and experiences. Ultimately, the diversity and uniqueness of our people fuel our ingenuity and set the course for the path ahead!

For this reason, we value diversity and we strive to always push each other forward to build an inclusive workplace where every employee feels like they belong, where they can grow and find meaning.

Job Requirements

Become our next generation if:

•You are pursuing a degree in Software Engineering, Computer Engineering or a related field.

•You demonstrate ambition, passion, self-reliance and resilience.

Citizenship Requirement N/A
